

**Darong Wu, MD, PhD** is the professor of traditional Chinese medicine (TCM), at the 2<sup>nd</sup> Affiliated Hospital of Guangzhou University of Chinese Medicine in Guangzhou, China. She is also part-time assistant professor of clinical epidemiology, at the Department of Clinical Epidemiology & Biostatistics (CE&B) of McMaster University in Hamilton, ON, Canada.

She is trained as traditional Chinese medical doctor and epidemiologist. Since December 2009 she serves as Director of the program for outcome assessment in TCM, Department of Clinical Epidemiology at the 2<sup>nd</sup> Affiliated Hospital of Guangzhou University of Chinese Medicine (i.e. Guangdong Provincial Hospital of Chinese Medicine, GPHCM). She served as coordinator in the collaboration program between GPHCM and the Royal Melbourne Institute of Technology (RMIT) University from Aug 2007 to July 2011. She is the co-principal investigator in the collaboration project between GPHCM and McMaster University since Jan 2013.

She is a board of directors of the evidence-based medicine committee of the Chinese Association of Integrative Medicine (CAIM) since Nov 2011, and a board of directors of the pediatric massage committee of the World Federation of Chinese Medicine Societies since June 2015. She was engaged as temporary adviser by the World Health Organization in some important international academic exchanges and training programs since 2013. She was the principal or co-principal investigator of several projects in the field of Integrated Medicine or Complementary and Alternative Medicine funded by the National Key Technologies R&D Program of China, or Key Projects of the National Science and Technology Pillar Program, or the Science and Technology Planning Project of Guangdong Province, and reviewer of national and international medical journals.
